T755

Added Weight for Steady Performance

The Vermeer® T755 COMMANDER® 3 stands firm even in the hardest digging conditions. This unit features the heavy-duty Vermeer D5 track that places 61,600 lb (27,942 kg) of tractive force on the ground in heavy rock conditions, reducing the bounce common in lighter weight competitive models. This results in smooth, reliable performance without excessive ground pressure.

A sectionalized boom on the T755 COMMANDER 3 allows the operator to match the boom length more closely to the job requirements. This results in better production, less tooth wear and vibration, and easier adjustments to match the boom length to the desired depth.

When You Demand Solid Results

Your Complete Global Service Provider for Quality Parts and Service.

Get the parts and service edge. In addition to providing quality equipment, Vermeer delivers top-quality parts and superior services. Vermeer parts are manufactured to exacting specifications to help keep your Vermeer equipment running trouble-free and at OEM specifications.

Vermeer offers factory-certified training programs to its dealer network to ensure that the most current service procedures are presented to the service personnel of your Vermeer dealer.

Standard Warranty / Vantage Track / Vantage Track II. Vermeer has confidence in its track trenchers. That's why Vermeer offers a 1-year / 1,000-hour standard limited warranty on the T755.
